

PRO-TWINE

Heavy Duty
Square Bale
Twine

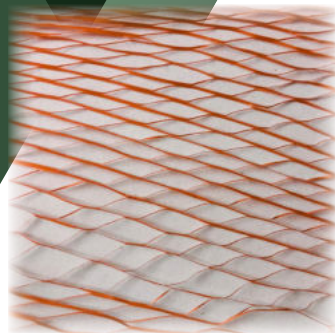

Innovators in Agricultural Technology

Pro-Twine products are manufactured using full state of the art computerised extrusion technology. We ensure high knot efficiency by using automated robotic twisting systems, guaranteeing top performance and an extremely high level of quality control.

Old Technology Twine

Pro-Twine Technology

Small Square

Blue colour - easily seen
Twin Packs for easy handling
100% PP
UV Stabilised
Excellent knot performance
Continuous Rungage
High Quality
2 x 2000m Twin pack

Large Square - LSB

Blue colour - easily seen
Twin Packs for easy handling
100% Single tape PP
UV Stabilised
Smooth Running
High Strength
Mechanically Fibrillated
2 x 1275m Twin pack

HDT - R1 - R1 X - R Force Plus

High Density Twine Range
Twin Packs for easy handling
Compatible with high density balers
Superior knot performance for bale security
100% Single tape PP
UV Stabilised
Smooth Running
Mechanically Fibrillated

Product	Type	Code	Colour	Spool Length	Length/ Pack	m/kg	Knot Strength	Units/ Pack
Pro-Twine Small Square	Standard Small Square	TWNSS	Blue	2000m	4000m	-	79kg	2
Pro-Twine Large Square	Standard Large Square	TWNLS	Blue	1275m	2550m	127	240kg	2
Pro-Twine HDT	Standard High Density	TWNHDT	White	1260m	2520m	116	260kg	2
Pro-Twine R1	Medium High Density	TWNR1	White	1100m	2200m	110	275kg	2
Pro-Twine R1 Plus		TWNR1+	White	1210m	2420m	110	275kg	2
Pro-Twine R1 X	Extra High Density	TWNR1X	Rust	1050m	2100m	105	300kg	2
Pro-Twine R1 X Plus		TWNR1X+	Rust	1155m	2310m	105	300kg	2
Pro-Twine R Force Plus	Ultra High Density	TWNRFP+	Rust	960m	1920m	80	360kg	2
MaxxCord 80	Ultra High Density	TWNMAXX	Pink	1008m	1008m	80	360kg	1
